

**KIWI
COAST**

**Vision: Thriving kiwi, roaming free,
nurtured and cared for by Northlanders**

**KIWI
COAST**

Building NZ's first kiwi corridor

How: Enable and engage Northlanders in caring for their kiwi

Skill building workshops, trapper mentoring and support

**KIWI
COAST**

Encourage kaitiakitanga / stewardship to protect and nurture kiwi for future generations

Facilitate the safe movement of kiwi

Sustain, connect and grow community-led pest control networks

- Communities, iwi and hapu lead and drive their own projects
- Kiwi Coast provides a platform of support

Predator Traps Northland 2015

Northland Predator Traps 2018

Kiwi Coast – NRC Partnership

**KIWI
COAST**

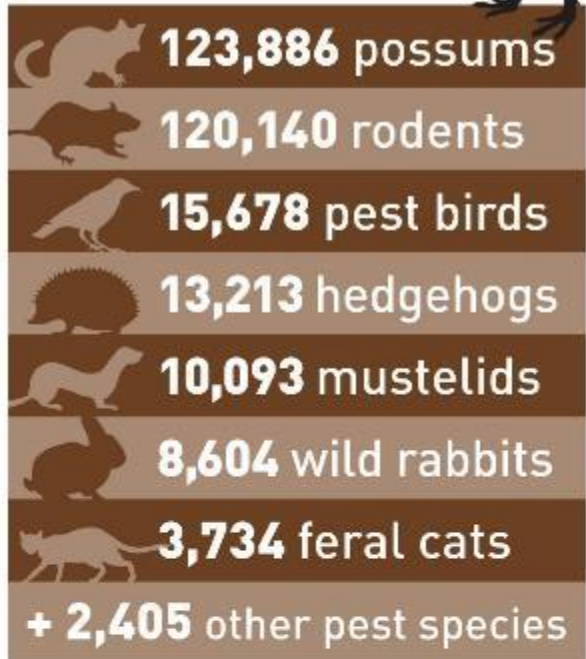

Northland is better off with

297,753

animal pests

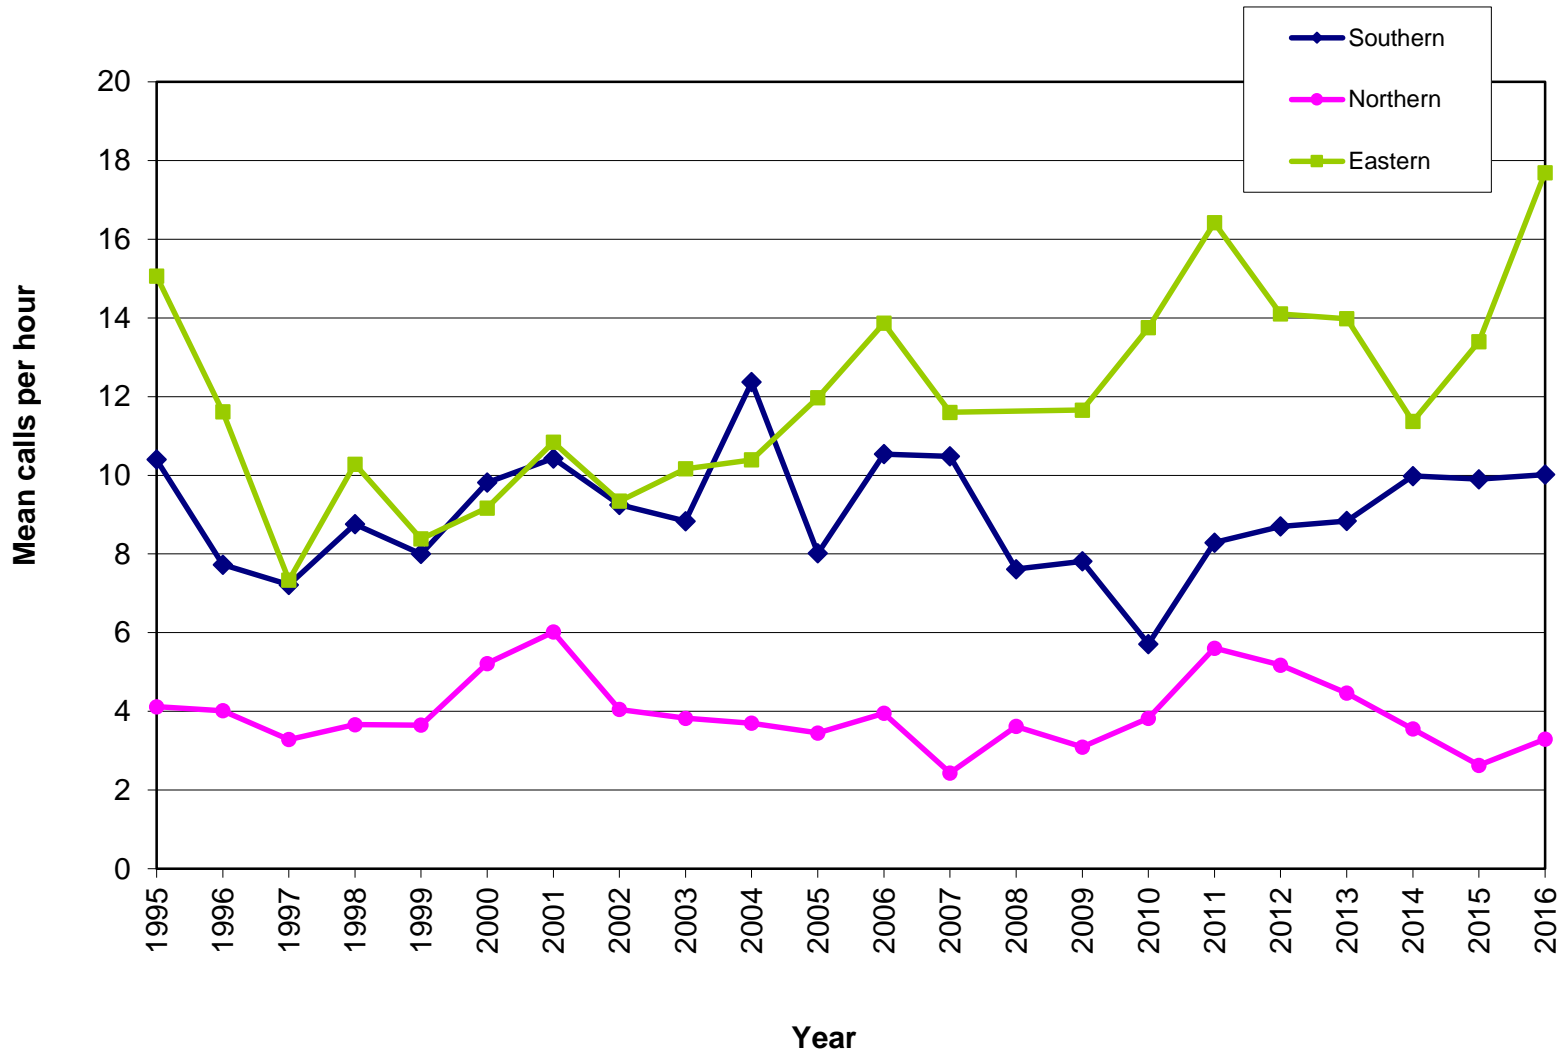

GONE!

**Coordinating pest
control results to
show landscape
scale impact**

Yes it's working!

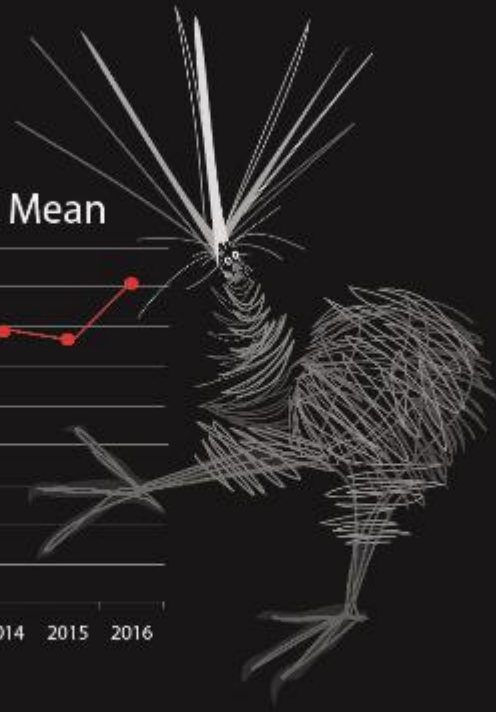

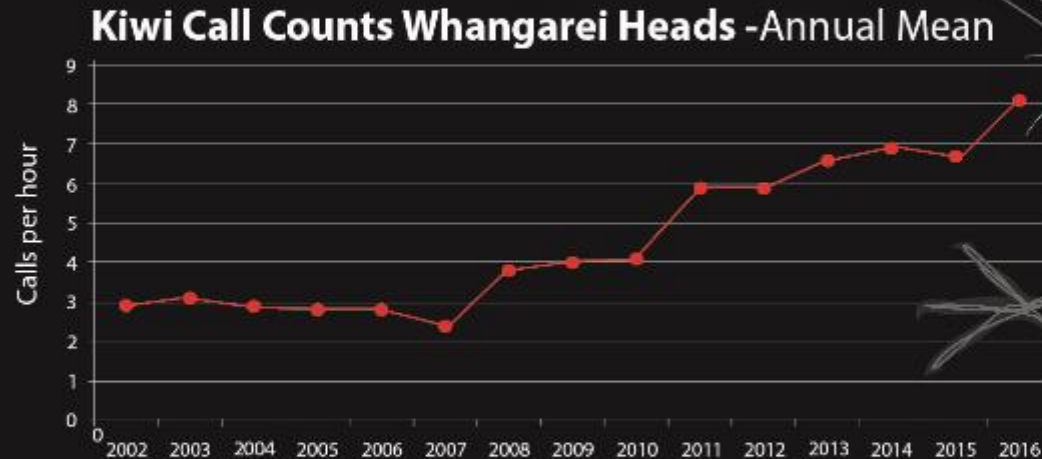

Nationwide kiwi declining 2% per annum

Kiwi increasing in isolated patches

Backyard Kiwi

www.backyardkiwi.org.nz

Connecting kiwi strongholds

to help kiwi roam safely

Flow on effects to other native species

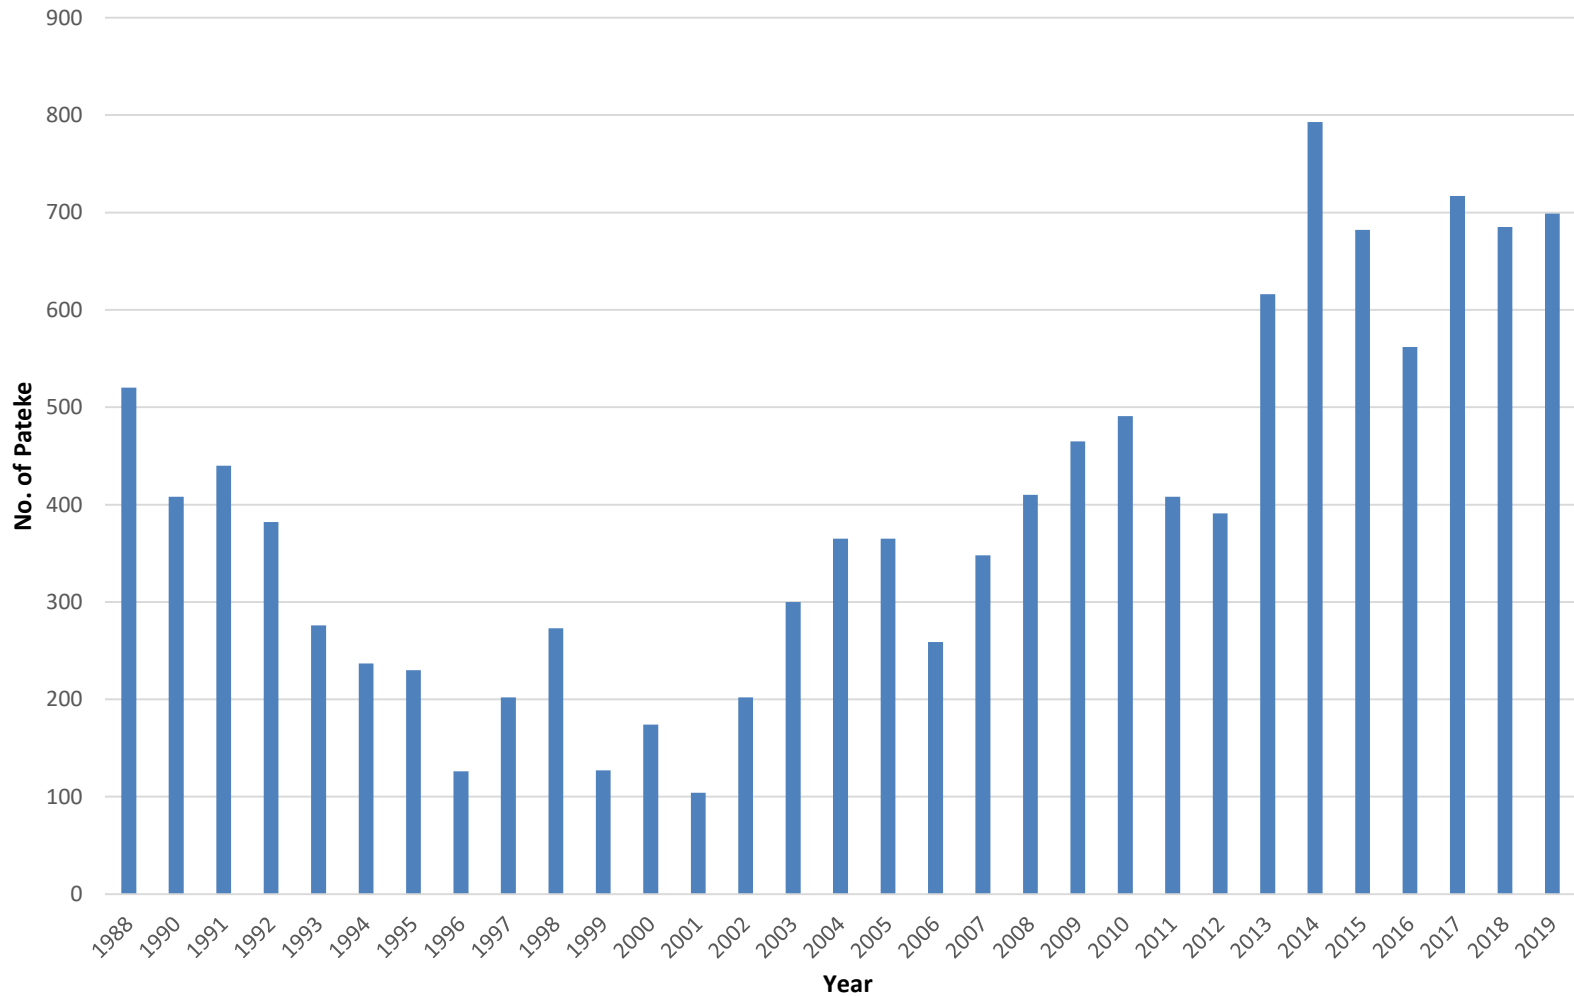

Indicator Species #1- Pateke

Pateke – 3rd highest flock count

Total Pateke Counted at Northland Flock Sites, 1988 - 2019

Indicator Species #2 and #3 Kaka & Bellbird

Winning hearts and minds

Thank You!
