Partnerships Driving Change for Biodiversity

Our Purpose

“Paptūānuku Thrives- remains the same. Our strategy centres us on being an honourable Treaty partner .”

Partnerships Driving Change for Biodiversity

Te Mana o te Taiao as the framework for Aotearoa's biodiversity work

“Te Mana o te Taiao – ANZBS sets a strategic direction for the protection, restoration and sustainable use of biodiversity, particularly indigenous biodiversity – this is a mission we share.”

Partnerships Driving Change for Biodiversity

Te Mana o te Taiao as the framework for Aotearoa's biodiversity work

“For the first time, key conservation activities across all government departments and regional councils have been identified in a plan of action to protect our native plants and wildlife and address the biodiversity crisis.”

Partnerships Driving Change for Biodiversity

Recognising success

“Sanctuaries are providing much-needed support to threatened species recovery programmes.”

Partnerships Driving Change for Biodiversity

The DOC-Sanctuaries partnership frontier

“Sanctuaries are already contributing significantly to achieving the outcomes described in Te Mana o te Taiao.”

Partnerships Driving Change for Biodiversity

Future Direction and Opportunities

“Te Mana o te Taiao – ANZBS sets a strategic direction for the protection, restoration and sustainable use of biodiversity, particularly indigenous biodiversity – this is a mission we share.”
